

TUBILUX

- tubular housing fully sealed, opal, impact-resistant PMMA
- reflector, gear tray and cover of sheet steel, galvanised, coated white
- High luminaire efficiency of up to 140 lm/W
- Non-ageing silicone gasket
- Fixed using versatile V2A pipe clips and hinged on one side (clips can be spaced at any position along entire length of luminaire for custom mounting options)
- Light colour: white 4000 K with Ra > 80 colour rendering
- LED service life: 50000 h before luminous flux is reduced to 70–80 % of the initial value (according to wattage)
- Chromaticity tolerance between multiple luminaires of up to 3 MacAdam ellipses
- Fitted by quick-release device, with torque-limiting action to prevent over-tightening
- Complies with requirements from the IFS (International Food Standards)
- Protection rating IP68 / IPX9k
- Luminaire pre-wired using halogen-free leads
