

Motus Pendant

motus is movement

Description

A small pendant luminaire complements the Motus family. The pendant measures only 18 cm, and will fit in with most projects. Suitable for mounting over a small table or in a cluster over a seating group. Although of modest size, the light output is excellent, making Motus Pendant more than just a decorative element in the room.

Control

Motus Pendant is available with a DALI/Switch-dim driver
